Alcohol and Drug Services Study (ADSS), 1996–1999: [United States]

Phase II, Administrator Interview Questionnaire (Part 2)
BIBLIOGRAPHIC CITATION

Publications based on ICPSR data collections should acknowledge those sources by means of bibliographic citations. To ensure that such source attributions are captured for social science bibliographic utilities, citations must appear in footnotes or in the reference section of publications. The bibliographic citation for this data collection is:

REQUEST FOR INFORMATION ON USE OF ICPSR RESOURCES

To provide funding agencies with essential information about use of archival resources and to facilitate the exchange of information about ICPSR participants' research activities, users of ICPSR data are requested to send to ICPSR bibliographic citations for each completed manuscript or thesis abstract. Please indicate in a cover letter which data were used.

DATA DISCLAIMER

The original collector of the data, ICPSR, and the relevant funding agency bear no responsibility for uses of this collection or for interpretations or inferences based upon such uses.
DATA COLLECTION DESCRIPTION

United States Department of Health and Human Services. Substance Abuse and Mental Health Services Administration. Office of Applied Studies

ALCOHOL AND DRUG SERVICES STUDY (ADSS), 1996-1999: [UNITED STATES] (ICPSR 3088)

SUMMARY: The Alcohol and Drug Services Study (ADSS) was a national study of substance abuse treatment facilities and clients. The study was designed to develop estimates of the duration and costs of treatment and to describe the post-treatment status of substance abuse clients. ADSS continues and extends upon data collected in the Drug Services Research Survey (DSRS) and the SERVICES RESEARCH OUTCOMES STUDY, 1995-1996: [UNITED STATES] (ICPSR 2691). The study was implemented in three phases. In Phase I a nationally representative sample of treatment facilities was surveyed to assess characteristics of treatment services and clients including treatment type, costs, program capacity, number of clients served, waiting lists, and services provided to special populations. In Phase II records were abstracted from a sample of clients in a subsample of Phase I facilities. This phase included four subcomponents: (1) the Main Study, an analysis of abstracted records to assess the treatment process and characteristics of discharged clients, (2) the Incentive Study, which assessed the impact of varying financial payments on follow-up interview participation among non-methadone outpatient clients, (3) the In-Treatment Methadone Client study (ITMC), which assessed the treatment process of methadone maintenance, and (4) the comparison study of Early Dropout clients (EDO), which provided a proxy comparison group of records from substance abusers that went untreated. Phase III involved follow-up personal interviews with Phase II clients who could be located. This interview sought to determine post-treatment status in terms of substance use, economic condition, criminal justice involvement, and further substance abuse treatment episodes. Urine testing was conducted to validate self-reported drug use. Drugs included in the survey were alcohol, marijuana, cocaine, crack cocaine, heroin, barbiturates, benzodiazepines, amphetamines, non-prescribed use of prescription medications, abuse of over-the-counter medications, and other drugs.

UNIVERSE: (1) Substance abuse treatment facilities in the United States registered in the Substance Abuse and Mental Health Services Administration's National Master Facility Inventory of known facilities. (2) Clients engaged in substance abuse treatment in these facilities.
SAMPLING: The Alcohol and Drug Services Study utilized a complex multistage sampling strategy. In Phase I, 2,395 substance abuse treatment facilities were selected from the Substance Abuse and Mental Health Services Administration's (SAMHSA) National Master Facility Inventory (NMFI) of known facilities. The sample was stratified to reflect the types of care offered within the nation's substance abuse treatment system. Selection strata included: (1) hospitals, (2) non-hospital residential treatment facilities, (3) outpatient-predominantly methadone treatment facilities, (4) outpatient-nomethadone treatment facilities, (5) outpatient combined methadone and nonmethadone treatment, (6) facilities serving predominantly alcohol abusing clients, and (7) facilities whose type of care could not be determined based on existing information at the time of sampling. Excluded from the sampling frame were halfway houses lacking paid counselors, solo practitioners, treatment programs in jails and/or correctional facilities, Department of Defense and Indian Health Service facilities, and facilities that were prevention or intake and referral only. Selection was based on probability proportional to size (PPS), with a minimum of 300 facilities to be selected per stratum. Sampling in Phase II consisted of several stages. First, the country was partitioned into approximately 400 geographic primary sampling units (PSUs) from which a representative sample of 62 were selected on the basis of demographic and economic characteristics. Within these 62 PSUs, a stratified subsample of Phase I facilities (n=306) was selected using PPS. The subsample utilized exclusionary criteria that eliminated 12 facilities: (a) facilities that had ceased operation prior to March 1, 1997, (b) facilities designated as hospitals (i.e., stratum 1), and (c) facilities in which 100 percent of clients were treated for alcohol abuse only. To ensure adequate sample size, sampled facilities were matched with "shadow" facilities. Of the original 294 eligible facilities, 60 refused to participate, yielding a response rate of 79.6 percent. Shadow facilities were then used to replace 46 refusing facilities, producing a final sample size of 280. Shadows were not used for facilities found to be ineligible (e.g., closed). Following interviews with administrators in the participating facilities, two types of client records were randomly sampled: (1) clients who were discharged for any reason at least one day after their date of treatment initiation, and (2) clients still actively engaged in methadone treatment. Persons whose treatment episode was clearly limited to mental health, family counseling, or other non-substance abuse services were not considered substance abuse treatment clients and were excluded from the sampling frame, even if they had prior history of substance abuse treatment. The client must have been the substance abuser him- or herself and not a family member or other person receiving treatment in relation to the substance abuser. In addition to the random sample, a non-
probability convenience sample of early dropout discharges (EDO) from outpatient programs was drawn as the comparison group. Early dropout clients were defined as clients who had been through assessment or an intake battery but completed no more than one day or one session of treatment. The comparison group was selected from cooperating facilities, to serve as a proxy for untreated substance abusers. In Phase III, clients randomly selected in the previous phase were approached for interview. Discharged clients younger than 18 years old at the time of interview and clients in the main study discharged group who were classified as methadone patients were excluded from this phase.

NOTE: (1) The study was conducted by the Schneider Institute for Health Policy, Brandeis University. Westat, Inc. collected and prepared the data. (2) ADSS files underwent disclosure analysis by SAMHDA/ICPSR in order to ensure that the identities of facilities and clients were protected. This involved reviewing the data files for potential risks as well as examining any external threats to confidentiality, such as other data sources that could be linked to ADSS. Such external data sources were found. To address this problem while still creating a public use file of the greatest utility possible, micro-aggregation of certain variables was used. This involved identifying the problematic variables, sorting records by the first problematic variable, grouping records into three based on their value for this variable, averaging the values for each grouping, and applying the average to the records in each group. This was repeated for each of the problematic variables, which included client count and financial data. Geographic identifiers were also removed. The overall impact of these protection procedures was small and should not affect most analytic uses of the data. (3) The Phase I facility public use file includes 2,394 of the original 2,395 records. One facility's record was deleted due to the presence of outlying data. (4) Please note that the unit of time for some variables in the facility file is specified in a separate variable, and these units are distinctly different from each other. For example, to analyze length of treatment, the researcher needs to examine two variables: QUANTITY VAR NAME and UNIT VAR NAME. QUANTITY specifies the "quantity" of treatment length while UNIT specifies the unit of QUANTITY such as days, weeks, months, years, or sessions. (5) The Finite Population Correction Factor and the two Stratified Jackknife Factor data files are provided for use with the WesVar and SUDAAN statistical software, and are not intended for use with other statistical packages. WesVar was developed by Westat Incorporated and SUDAAN is a product of the Research Triangle Institute. These three files are being distributed as received from the principal investigator and have not been tested by ICPSR. (6) The data from the follow-up Incentive Study in Phase III are not released as part of this
public use file. (7) The codebook is provided by ICPSR as a Portable Document Format (PDF) file. The PDF file format was developed by Adobe Systems Incorporated and can be accessed using PDF reader software, such as the Adobe Acrobat Reader. Information on how to obtain a copy of the Acrobat Reader is provided on the ICPSR and SAMHDA Web sites.

RESTRICTIONS: Users are reminded by the United States Department of Health and Human Services that these data are to be used solely for statistical analysis and reporting of aggregated information and not for the investigation of specific individuals or organizations.

ALCOHOL AND DRUG SERVICES STUDY

ADMINISTRATOR INTERVIEW

WESTAT, INC.
SAMHSA/BRANDEIS

NOTIFICATION TO RESPONDENT OF ESTIMATED BURDEN

Public burden for this collection of information is estimated to take, on average, 45 minutes per response to complete the interview, and 1 hour per response for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, completing and reviewing the collection of information, and preparing for the face-to-face interview. Send comments regarding the burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden, to: DHHS Reports Clearance Officer, Paperwork Reduction Project (0930-0180), Room 531-H, Humphrey Building, 200 Independence Avenue, S.W., Washington, D.C. 20201.

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control number for this project is 0930-0180.

This questionnaire was designed to collect information from different types of facilities, providing different types of care. We will be asking you to respond to this interview on behalf of the facility and the types of care that I will review with you now.

[RESOLVE ANY DISCREPANCIES WITH RESPONDENT BEFORE PROCEEDING WITH THE INTERVIEW. IF NONE OF THE ITEMS AGREE, DO NOT PROCEED, CONTACT YOUR SUPERVISOR.]

Notice: The information entered on this form will be handled in the strictest confidence and will not be released to unauthorized personnel. This research is authorized under Section 505 of the Public Health Service Act (42 U.S.C. 290aa-4).
V1. The name of this facility is (READ SAMPLED FACILITY AND PROGRAM NAMES FROM FIS). Is that correct?

   YES................................. 1  
   NO................................. 2 (Update FIS)

V2. The address of this facility is (READ LOCATION ADDRESS FROM FIS). Is that correct?

   YES................................. 1  
   NO................................. 2 (Update FIS)

V3. On October 1, 1996, you offered the following types of care, with client numbers of (READ TYPE OF CARE AND CLIENT INFORMATION FROM FIS). Is that correct?

   YES................................. 1  
   NO................................. 2 (Update FIS)

(ANY MAJOR DISCREPANCIES SHOULD BE NOTED IN THE COMMENTS SECTION OF THE FIS. IF POSSIBLE, PROCEED WITH INTERVIEW.)

I would like to update that information and ask you some additional questions about the types of care and policies of this substance abuse treatment facility. The types of care covered will be hospital inpatient, non-hospital residential, and outpatient care, including outpatient methadone treatment.

Q1. How many total clients are currently in substance abuse treatment at this facility?

   __________

Q2. Does this facility currently offer the following types of substance abuse treatment:

<table>
<thead>
<tr>
<th>TYPE OF CARE</th>
<th>YES</th>
<th>NO</th>
</tr>
</thead>
<tbody>
<tr>
<td>a. Hospital inpatient treatment</td>
<td>1</td>
<td>2</td>
</tr>
<tr>
<td>b. Non-hospital residential treatment</td>
<td>1</td>
<td>2</td>
</tr>
<tr>
<td>c. Outpatient methadone treatment</td>
<td>1</td>
<td>2</td>
</tr>
<tr>
<td>d. Outpatient non-methadone treatment</td>
<td>1</td>
<td>2</td>
</tr>
</tbody>
</table>

Q3. How many substance abuse clients are currently in that type of treatment?

   __________

INTERVIEWER: RECONCILE Q3 TOTAL WITH Q1 RESPONSE, IF DIFFERENT.
Q4. Below is a list of materials about your facility we would like to obtain. We would greatly appreciate it if you would provide us with copies. May we have a copy of:

<table>
<thead>
<tr>
<th>NO</th>
<th>YES</th>
<th>NOT</th>
</tr>
</thead>
<tbody>
<tr>
<td>REFUSED</td>
<td>COPY</td>
<td>APPLICABLE</td>
</tr>
<tr>
<td>OBTAINED</td>
<td>DO NOT</td>
<td>HAVE</td>
</tr>
</tbody>
</table>

a. Copy audited financial statements (most current) .................... 7 1 0
b. Detailed organizational chart..................................................... 7 1 0
c. Annual statistical report............................................................ 7 1 0
d. Year-end G/L Summary Report (most current).............................. 7 1 0
e. Methadone Annual Dispensing Summary ................................ 7 1 0
f. Personnel listing, including staff name, position, and degree (for counselors) ......................................................... 7 1 0
g. Facility and/or program brochures ............................................. 7 1 0

j. Blank client discharge form ........................................................ 7 1 0
k. Client bill with client identifiers removed ................................... 7 1 0
Now, I'm going to ask you a series of questions about clients receiving hospital inpatient substance abuse care at this facility. This includes clients in hospital inpatient detoxification and hospital inpatient rehabilitation treatment.

Q5.  
   a. How many hospital inpatient beds for substance abuse treatment does this facility have?  
      Total hospital inpatient beds ............................................. |__|__|__|__| CALCULATOR  
   b. How many of those are for inpatient detoxification? ........ |__|__|__|__|  
   c. How many of those are for inpatient rehabilitation? .......... |__|__|__|__|  

Q6.  
   a. How many hospital inpatient admissions for substance abuse treatment were there during the most recent 12-month period for which you have data?  
      READ DEFINITION OF ADMISSIONS:  
      "Admissions" refers to the count of persons entering or reentering treatment at this facility. This includes all those starting a treatment program, whether or not the program is completed. Be sure to count each admission for clients entering treatment more than once or entering more than one type of care during the 12-month period.  
      Total hospital inpatient admissions ................................... |__|__|__|__| CALCULATOR  
   b. How many of these were for inpatient detoxification ....... |__|__|__|__|  
   c. How many of these were for inpatient rehabilitation ........ |__|__|__|__|  

Q7.  
   a. During the 12-month period, what was the average length of stay in the hospital for the inpatient detoxification clients at this facility? Do not include leave days or aftercare treatment as part of the average stay.  
      NUMBER DAYS WEEKS MONTHS  
      |__|__|__| 1 2 3  
   b. During that period, what was the average length of stay in the hospital for the inpatient rehabilitation clients at this facility? Do not include leave days or aftercare treatment as part of the average stay.  
      NUMBER DAYS WEEKS MONTHS  
      |__|__|__| 1 2 3  

c. IF RESPONDENT IS UNABLE TO GIVE AVERAGE FOR DETOXIFICATION AND REHABILITATION SEPARATELY, ASK:

During that period, what was the average length of stay in the hospital for all hospital inpatient substance abuse clients?

<table>
<thead>
<tr>
<th>NUMBER</th>
<th>DAYS</th>
<th>WEEKS</th>
<th>MONTHS</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>1</td>
<td>2</td>
<td>3</td>
</tr>
</tbody>
</table>

Q8. What was the 12-month period used for the hospital inpatient information?

FROM _______________ THROUGH _______________
MONTH/DAY/YEAR MONTH/DAY/YEAR

Q9. a. During the same period, on average, how many individual counseling sessions did the hospital inpatient detoxification clients attend each week?

SESSIONS IN WEEK

b. During the same period, on average, how many individual counseling sessions did the hospital inpatient rehabilitation clients attend each week?

SESSIONS IN WEEK

c. During the same period, on average, how many group counseling sessions did the hospital inpatient detoxification clients attend each week?

SESSIONS IN WEEK

d. During the same period, on average, how many group counseling sessions did the hospital inpatient rehabilitation clients attend each week?

SESSIONS IN WEEK

Q10. What types of group counseling sessions are currently provided to hospital inpatients (either detoxification or rehabilitation) in substance abuse treatment?

Do you provide:

<table>
<thead>
<tr>
<th>YES</th>
<th>NO</th>
</tr>
</thead>
<tbody>
<tr>
<td>a.</td>
<td></td>
</tr>
<tr>
<td>b.</td>
<td></td>
</tr>
<tr>
<td>c.</td>
<td></td>
</tr>
<tr>

</tr>
<tr>
<td>e.</td>
<td></td>
</tr>
</tbody>
</table>
Now I'm going to ask you a series of questions about clients receiving non-hospital residential substance abuse care at this facility. This includes clients in residential detoxification and residential rehabilitation.

Q12.  
   a. How many non-hospital residential beds for substance abuse treatment does this facility have?  
   
   Total non-hospital residential beds ................................... |__|__|__|__| CALCULATOR

   b. How many of those are for residential detoxification? ...... |__|__|__|__|

   c. How many of those are for residential rehabilitation? ...... |__|__|__|__|

Q13.  
   a. How many non-hospital residential admissions for substance abuse treatment were there during the most recent 12-month period for which you have data?  
   
   "Admissions" refers to the count of persons entering or reentering treatment at this facility. This includes all those starting a treatment program, whether or not the program is completed. Be sure to count each admission for clients entering treatment more than once or entering more than one type of care during the 12-month period.

   Total non-hospital residential admissions ....................... |__|__|__|__| CALCULATOR

   b. How many of these are for residential detoxification? ...... |__|__|__|__|

   c. How many of these are for residential rehabilitation? ...... |__|__|__|__|

Q14.  Is this non-hospital residential facility a therapeutic community?

   YES ........................................................ 1

   NO .......................................................... 2
Q15.  

a. During the 12-month period, what was the average length of stay in the facility for these residential detoxification clients at this facility? Do not include leave days or aftercare treatment as part of the average stay.

<table>
<thead>
<tr>
<th>NUMBER</th>
<th>DAYS</th>
<th>WEEKS</th>
<th>MONTHS</th>
<th>YEARS</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>1</td>
<td>2</td>
<td>3</td>
<td>4</td>
</tr>
</tbody>
</table>

b. During that period, what was the average length of stay in the facility for the residential rehabilitation clients at this facility? Again, do not include leave days or aftercare treatment.

<table>
<thead>
<tr>
<th>NUMBER</th>
<th>DAYS</th>
<th>WEEKS</th>
<th>MONTHS</th>
<th>YEARS</th>
</tr>

Q36. Does this facility have an intensive outpatient program?

YES......................................................... 1
NO........................................................... 2 (Q38)

Q37. On average, how many hours per week do intensive outpatient clients attend the program?

| _____ | _____ |
| HOURS |

12
ALL TYPES OF CARE

Now I'd like to ask you several questions that apply to all the types of care we've discussed.

Q38. On average, how many clients at this facility dropped out of treatment each month over the past year prior to completing the full course of treatment?

________________________
# OF CLIENTS PER MONTH

Q39. On average, how many clients at this facility drop out of treatment each month after completing only the intake interview or one day or session of treatment?

________________________
# OF CLIENTS PER MONTH

Q40. Does this substance abuse treatment facility offer the following types of aftercare services at this location for clients who have been discharged from treatment:

<table>
<thead>
<tr>
<th>Service</th>
<th>YES</th>
<th>NO</th>
</tr>
</thead>
<tbody>
<tr>
<td>a. Outpatient counseling</td>
<td>1</td>
<td>2</td>
</tr>
<tr>
<td>b. Self-help groups</td>
<td>1</td>
<td>2</td>
</tr>
<tr>
<td>c. Alumni groups</td>
<td>1</td>
<td>2</td>
</tr>
</tbody>
</table>
The next several questions relate to client records for all types of care.

Q41. Does this facility maintain any computerized information on individual substance abuse treatment clients?

YES......................................................... 1
NO........................................................... 2 (Q44)

Q42. Does the computerized information contain any of the following?

=YES NO

1. Client descriptive information, such as age or sex .......... 1 2
2. Drugs of abuse................................................................. 1 2
3. Client treatment history .................................................... 1 2
4. Diagnosis........................................................................... 1 2
5. Services received, such as individual or group
   therapy ................................................................................ 1 2
6. Number of bed days for inpatients ................................. 1 2
7. Number of visits or encounters for outpatients ............... 1 2
8. Reasons for discharge ..................................................... 1 2
9. Source of payment for that client ................................. 1 2
10. Billing information.......................................................... 1 2

Q43. Can computerized client records on services received during a visit, such as individual therapy or group therapy, be linked to computerized records on billing? .................................................. 1 2
The next several questions deal with administrative and financial issues for all types of care.

Q44. Are annual audited financial statements prepared for this substance abuse treatment facility?

YES.........................................................  1
NO...........................................................  2 (Q46)

Q45. Is this financial statement only for this substance abuse treatment facility, or does it include information about other entities?

THIS FACILITY ONLY .........................  1 (Q46)
INCLUDES OTHER ENTITIES ............  2 (Q45b)

b. How many other entities?

|___|___|___|___|

c. How many of these provide substance abuse treatment?

|___|___|___|___|

Q46. Does this substance abuse treatment facility receive any in-kind contributions? Here are some examples: Furniture, equipment, food, bedding, clothing, space, tax relief, discounted facility rental rates, volunteer services.

YES .........................................................  1

Q47. IN COLUMNS 1-3, THE INTERVIEWER WILL ASK THE ADMINISTRATOR TO UPDATE THE DATA COLLECTED IN THE PHASE I FACILITY QUESTIONNAIRE, ITEM A9. THE INTERVIEWER WILL COLLECT NEW INFORMATION IN COLUMN 4. INTERVIEWER SHOWS RESPONDENT XEROX COPY OF FACILITY RESPONSE TO ITEM A9 FROM PHASE I.

In Phase I, you or someone at your facility provided the following information about the number and type of staff providing substance abuse treatment at this facility on October 1, 1996. Now, I would like to update this information. Please review this chart and indicate whether these counts are now the same or different. If the staff counts are different, please provide updated numbers.

In columns 1-3, please indicate the number of full-time and part-time staff members involved in substance abuse treatment. Count staff on the payroll, contract staff and consultants currently providing substance abuse treatment at this facility in each of the following staff categories. (Full-time staff are those working 35 or more hours per week. Part-time staff are those working on a regular basis but fewer than 35 hours per week.) If any staff worked in more than one staff category listed, please put them in the one category in which they worked the most, i.e., spent the most time, during the past week.

If you can only report staff numbers in terms of full-time equivalents (FTE), check this box and record the number of FTE's in column 1.

In column 4, indicate the total number of hours worked by all full-time and part-time staff on payroll, contract staff, and consultants at this facility during the last 7-day period for which you have records.
